

MARYLAND AUTOMOBILE RECORD ESTABLISHED

Run From Baltimore to Frederick in Two Hours.

M. GILLET GILL THE VICTOR

With Steam Machine He Beats Dr. Emerson's French Car by Twenty Minutes—Six Starters.

FREDERICK, Md., Oct. 22.—Seventeen members of the Automobile Club of Maryland left Baltimore at 1 o'clock yesterday afternoon, and the first machine to reach here made the run to Frederick, a distance of forty-seven miles, in 2 hours and 11 minutes. This record-breaking feat was accomplished by M. Gillet Gill, who was accompanied by W. B. Duke in Mr. Gill's steam machine.

Mr. Gill, who is proud of his record, tonight says he "arrived twenty minutes ahead of Dr. E. Emerson, and declares that it demonstrates the superiority of the American machine over the French machines." Mr. Emerson, on the other hand, says it was no race at all, and that Mr. Gill became reckless and plowed ahead regardless of consequences, but good luck was in his wake and fortune crowned his efforts.

Slaughtered Chickens.

"Had I as many years on my shoulders as Mr. Gill I, too, would have taken chances and would have beaten him." "That's all very good," said Mr. Gill, "but the public will know who did rockless running when they find you ran over two chickens and I killed only one on the road."

The trip from start to finish was a delightful one, and all the members enjoyed it. All of those making the trip were dressed in regulation automobile style. The owners of machines and their chauffeurs wore their Russian calf automobile coats, and no one was without goggles, as the dust was trying to the eyes.

Dr. Isaac E. Emerson has the largest car, which is of French make and is a tremendous red machine. They all stopped in the city last night. Today they will visit the fair and return home by way of Westminster. They came today by way of Ellicott City, Cooksville, and Ridgeville. Mr. Gill reached Ridgeville in 1 hour and 31 minutes and Frederick in 2 hours and 11 minutes. Slowest time, 4 hours 15 minutes. The time of the others was:

William Keyser, Jr., 2:36; Stanley Zell, 2:38; Dr. E. Emerson, 2:39; C. Warner Stork, 3:30; and Colonel Barry, 4:15.

The Participants.

Those in the six carriages were: Messrs. M. Gillet Gill and W. B. Duke, Col. W. A. Barry and W. C. Halbutt, steam machine; Mr. and Mrs. A. Stanley Zell and Mr. and Mrs. Scharz, an American touring car; Mr. and Mrs. C. Warner Stork and Mrs. Stork, in steam machine; Dr. Isaac Emerson, Miss Margaret Emerson, and Mrs. W. White, in the red imported touring car; William Keyser, Jr., J. Stewart Smith, and Howard Gill, in French machine.

PANAMA TITLE OPINION EXPECTED THIS WEEK

Belief That It Will Be Such as to Allow of the Early Framing of a Treaty With Colombia.

It is expected that Attorney General Knox will tomorrow or Saturday submit his opinion to the President relative to the title of the Panama Canal Company to the canal property and its right to convey its interest to the United States.

Although nothing definite is known as to the text of the report of Mr. Knox, it is believed that the matter has reached a stage which will warrant the President taking a very decided step looking to an early beginning of the work of construction. A treaty covering the whole subject, it is believed, will be ready and submitted to the Senate soon after Congress convenes in December.

It is not believed, however, that the members of the Panama commission will be named until near the end of the session. Gen. Leonard Wood, because of his good work in Cuba, it is believed, will be closely connected with the canal enterprise, though it is not probable that he will be named as a member of the commission.

WESLEY CHOR GETS PRIZE.

The Wesley Chapel choir, under the direction of Prof. King was last night awarded a prize of \$25 at the meeting of the Anti-Saloon League in the First Congregational Church for the best anti-saloon hymn or anthem. The words of the anthem were composed by Prof. King and set to the music of Dudley Buck. The program of the evening was devoted to the rendition of the compositions that had entered the contest and was an interesting one throughout. Tonight the league will hold a meeting at the Georgetown Evangelical Church, Thirty-second and C Streets northwest. An address will be delivered by S. E. Nicholson, State superintendent of the Maryland League.

QUERIES OF COMMISSIONERS.

The Civil Service Commission is daily receiving a large number of letters of inquiry from Federal employees and postmasters in different parts of the United States to know if they can attend political meetings, without violating the rules. This increase in the mail of the Commission is the result of the letter of President Roosevelt, relative to the circular sent out by the Republican State committees of Pennsylvania and Ohio, to Government employees, soliciting contributions for campaign purposes. It appears that employees in the classified service have gathered from the President's letter that they should not

PEACE IN BATANGAS, BUT WITH WOEFUL POVERTY

Report of Simeon Luz, Governor of Province.

The Bureau of Insular Affairs of the War Department has made public the following report of Simeon Luz, governor of Batangas province, which was submitted to Governor Taft under date of September 8, 1902:

"I have just returned from a thirty days' trip through every municipality. There is absolute peace in the province, and almost all the inhabitants heartily accept American sovereignty and gladly welcome the inauguration of civil government. On every hand I found the inhabitants engaged in peaceful pursuits and making every effort to re-establish their former prosperous conditions.

"Batangas having been one of the last of the provinces to continue the insurrection, naturally suffered most from the ravages of war. Prior to the insurrection against the Spanish, it was one of the wealthiest provinces in the archipelago; but now its condition is deplorable, with little hope of a present relief from its critical condition unless there can be had relief of some character.

"During the past three years about 95 per cent of the animals used for agricultural purposes died from disease, and this disease becoming almost epidemic, the animals brought from other provinces at great expense also died. It will take many years to re-establish the former agricultural condition of this province unless there is material help on the part of the central government.

"It is my opinion that if an 'agricultural bank' could be instituted, at which the landowner could borrow money at low interest by mortgage on his land, the question would soon be solved.

"In the inland municipalities of San Jose, Lipa, Ibaan, Taysan, Rosario, Tanauan, Santo Tomas, and Talisay there is a scarcity of rice and other food. Were it not for the sale of rice at low cost by the military authorities, and the free distribution to the poor, there would be much suffering in these towns, if not actual starvation.

"The military deserve great credit for their work in this province, and, despite the difficulties of transportation, government rice is on sale in the remotest pueblos.

"Schools have been established in most of the municipalities and American teachers are at work in Batangas, Bauan, Balaian, Calaca, Lemery, Lipa, Lobo, Nasugbu, San Jose, San Juan de Booboc, Santo Tomas, Tausan, Taal and Talisay.

"These schools are well attended and rapid progress has been made. Large numbers of boys and girls are beginning to speak and write the English language quite fluently. A provincial high school has been established at Batangas, with modern seats and equipments. The educational prospect is bright, indeed, in this province.

"Armed ladrones are only heard from in the municipalities bordering on Cavite, from which province 'forays' are occasionally made. We are troubled in a few municipalities by cattle thieves, who have accomplices in Cavite, where the stolen cattle are disposed of and later sent to Manila.

"The military authorities did considerable work on a number of the roads of the province. Some of these roads are in good condition, while in others the work needs supplementary work to make them of permanent value. The repairing of roads and bridges would give employment to hundreds of needy inhabitants and tide over the critical condition of this province.

"I am happy to state that the complaints against the soldiers are few in number and of small importance, one case only coming to my attention, and that by native troops."

INTERSCHOLASTIC FOOTBALL LEAGUE

Four Schools Represented in Association—John R. McLean Donates a Trophy Cup.

The Washington Interscholastic Football Association was organized last night at 1723 N Street northwest. Representatives were present from the University School, Emerson Institute, Washington School for Boys, and the Friends' School.

It was announced that John R. McLean had donated a cup to be entrusted to the team winning the series, and awarded permanently to the team winning the trophy three years in succession. The following officers were elected: President, U. Moorhead, of the Washington School; vice president, Bruce Magruder, Emerson Institute; secretary, Walter C. Foster, Friends' School, and treasurer, M. Du P. Lee, University School.

UNIQUE COTILLION.

LEXINGTON, Ky., Oct. 22.—J. R. Haggins, gave here last night a unique reception, the first of its kind ever witnessed in the Blue Grass. The German was led by Col. Roger Williams, who introduced some original ideas, getting into the figures the notion of several outdoor sports, such as coaching, fox hunting, racing, and fencing. In the coaching figure, the woman dressed in the orange and blue colors of the great turfman drove three men through the floral arches with whip and footman.

OCEAN RACE BEGINS.

NEWPORT, R. I., Oct. 22.—An ocean race across the North Atlantic between the schooners America and Unique started off Black Island yesterday, with the finish at Brava, Cape Verde Islands, 3,000 miles away.

A purse of \$200 awaits the winner, but ten times that sum has been wagered by the people of New Bedford and Providence, the sailing ports of the two vessels.

CASTORIA For Infants and Children.
The Kind You Have Always Bought

HERE TO FIND OUT WHO GOVERNS ISLE OF PINES

Residents Do Not Know, and Have Sent to Learn.

The question whether the Isle of Pines belongs to the United States or to Cuba is just now worrying the three or four hundred American citizens on that body of land. S. H. Pearce, of Nueva Gerona, Isle of Pines, who arrived yesterday and is at the New Willard, is here to learn, or rather officials of the administration if the Americans who went to the island after the ratification of the Paris treaty are citizens of the United States or citizens of Cuba.

Mr. Pearce is vice president of the Isle of Pines Company, and a director in several other corporations connected with the island.

"It's a curious state of affairs," he said, last evening. Up to the 20th of last May we were satisfied that we were citizens of the United States, but on the day of the withdrawal of American authority over Cuba the Isle of Pines was temporarily turned over to the Cuban government.

"The Americans on the island are in a quandary and they have sent me to Washington to investigate and learn just where we stand. The Cubans really exercise no authority over us, except that they have on the Isle of Pines eight guards to preserve order, and an alcalde, or minor judicial officer.

"In point of fact there is no more law on the island than there is in an African jungle. In Nueva Gerona, the chief town of the Isle of Pines, which has a population of about 800, we have not a judge, notary public, justice of the peace, constable, nor magistrate. If you want any papers executed you must go to Bejuco, the nearest Cuban town to the island. Its distance is a hundred miles, sixty miles by water and forty miles by rail. The boat leaves for Bejuco but once a week.

"More than one-half of the Isle of Pines is now owned by Americans. Originally the land was owned by twenty-five Spaniards, nearly all of whom lived in Spain. The island served as a recruiting station for Spanish soldiers during the period of Spain's trouble with Cuba, prior to the war with Spain. The Spanish soldiers were sent to the Isle of Pines to become acclimated before transferring them to Cuba.

"A penal colony was also maintained on the island by Spain. It is a remarkable fact that a case of yellow fever was never known on the island.

"In natural resources the Isle of Pines is really richer than Cuba. We have vegetables all the year around, and in December and January we have the most delicious watermelons and cantaloupes to be found.

"We heard in Nueva Gerona that the United States Government was negotiating a treaty with Cuba whereby the Isle of Pines was to be given to Cuba in exchange for certain concessions asked for by the United States. We do not know what the concessions are, but we are decidedly opposed to being turned over to the Cuban government without so much as asking our leave.

"The Cubans do not like the Americans, and they are opposed to annexation. They are ungrateful and distrust our Government."

STRIKERS ATTACK GANG OF NON-UNION MINERS

With Sticks and Stones They Put Them to Flight—Several Badly Hurt and Removed to Hospital.

SCRANTON, Pa., Oct. 22.—A crowd of non-union workmen who were employed at the Dodge mine were set upon by a crowd of strikers early last night as they were leaving the colliery and several of them were severely injured.

It is estimated that there were about fifty men in the crowd when they started for their homes, and many of them were leaving for good, carrying their tools and working clothes with them.

When the attack was made the non-unionists scattered in every direction, fleeing from the stones and other missiles hurled at them.

Three of them sustained injuries about the head, face, and body, and it was reported that one man was thrown into the Lackawanna River.

All three men were taken to the Lackawanna Hospital. No arrests were made, as the crowd had dispersed when the police were summoned.

SPANISH POLICE SCANDAL.

MALAGA, Spain, Oct. 22.—A huge scandal in the police department has come to light here, and almost the entire force has been arrested by the city authorities. It has been discovered that the police entered into a compact with criminals according to which the police were to share in the proceeds of thefts, and in return would not prosecute the criminals.

HOTEL DYNAMITED.

CLINTON, Mass., Oct. 22.—Dynamite was used last night in an attempt to wreck the Berlin Hotel on the main thoroughfare between Clinton and Berlin. The attempt was partially successful. John Draper, proprietor of the hotel, with his wife, and several guests, escaped serious injury only because they were in a part of the house distant from the scene of the operations by the dynamiters. Revenge is thought to have prompted the act.

GOOD RESULTS FOR WAR GAME.

An investigation conducted by the Bureau of Navigation of the Navy showed that desertions in the navy are of less frequency since the Spanish war, and that since the war game, a greater air of cheerfulness exists in the North Atlantic Squadron. Men and officers acknowledge that there has been a marked gain in efficiency from the hard work of the summer.

EXPECTED RETIREMENT OF LIEUT. HOLLINBERGER

Well-Known Police Official Wishes to Be Relieved On Account of Declining Health.

It is more than likely that within a month Lieut. L. H. Hollinberger, at present commanding the Fourth precinct police station in Southwest Washington, will be retired from active police duty on his application.

The lieutenant has been in exceedingly poor health of late, and only a few weeks ago had an operation performed, which, however, has failed to do him much good.

The lieutenant's illness has been of such a character that frequently during the past summer he has been compelled to remain away from his station.

There is much speculation in the department as to who will succeed to the vacant Lieutenancy. Night Inspector Matthews, who is an acting lieutenant, is mentioned for the vacancy. The name of Sergeant Dunnigan is also mentioned.

Lieutenant Hollinberger was born in Baltimore, Md., on the 15th of February, 1837. For some years he was a school teacher in Prince George county, Md. He was appointed a member of the Police Department on January 31, 1867. He was made a sergeant on January 15, 1874, a lieutenant on February 1, 1889, and Chief of Detectives in 1892.

RELIEF IN SIGHT FOR SOMALILAND TROOPS

General Manning Reports Conditions More Favorable.

LONDON, Oct. 22.—The foreign office today received a dispatch from General Manning, who was sent to the relief of Col. Swayne in Somaliland. The telegram is dated Berbera, and reads:

"I arrived at Berbera at 10 o'clock on the morning of October 22. Swayne has reached Boshelle in safety. His force was not attacked during the retirement. The situation is consequently more satisfactory, but do not cancel the orders moving a Punjab regiment from India for service here in case such orders have been given as further developments must be awaited. The wounded are doing well. A detachment from Aden is due to arrive today, and they will assume a forward position tomorrow."

Colonel Swayne, several days ago, suffered a serious reverse at the hands of the Mad Mullah, and for a time it was feared his entire force had been wiped out. General Manning was sent to reinforce him.

ROMAN WALL FALLS.

ROME, Oct. 22.—As the result of heavy floods thirty miles of the old Roman wall have collapsed.

Corsets, Undergarments and Children's Wear.

MAYOR TOM JOHNSON'S CHALLENGE ACCEPTED

To Meet W. R. Hopkins in Debate on Tuesday.

CLEVELAND, Ohio, Oct. 22.—After many challenges Mayor Johnson is to meet in joint debate with a Republican leader. The only Republican who has had the temerity to take up the gauntlet constantly thrown down by Cleveland's mayor is W. R. Hopkins, ex-chairman of the Republican county committee, and mentioned as the man to be pitted against Johnson for mayor next spring.

The debate will take place Tuesday evening in one of the largest auditoriums in the city, and admission will be by ticket. The Republicans to have the distribution of these.

Hopkins will ask the mayor all sorts of questions and Johnson has agreed to answer them all and make even the Republican audience come to his way of thinking on the taxation and franchise questions.

MANY KILLED IN WRECK.

LISBON, Oct. 22.—There was a bad railway wreck at Cacem today. Two trains, one from Lisbon, and one from Cintra collided, head-on. The carriages of both trains were completely wrecked, and many persons were killed and injured.

GOLDENBERG'S Seventh and K Streets.

Friday Remnants!

You know our policy toward the Remnants and small lots that accumulate each week. Under the rigid rule of clearance, prices are clipped and costs ignored in a way that plainly tells of our sincerity of purpose. The swift-turning wheels of trade have made the Remnant news for tomorrow especially interesting.

Sweating Process

which was used in olden days to cure a cough or cold, is the most dangerous kind of treatment. It opens the pores and very often the patient when exposed after the sweating contracts pneumonia and consumption.

Dr. Bull's Cough Syrup

will cure the cough and cold and heal the throat and lungs without leaving any bad after-effects or danger of contracting pneumonia or consumption. Be sure you get DR. BULL'S, with the "Bull's Head" on the package.

REFUSE SUBSTITUTES

offered by unreliable dealers. They contain dangerous drugs and are injurious to the system. No substitute is "just as good" as Dr. Bull's Cough Syrup. At all druggists, a large bottle for 25 cents.

SMALL DOSE. PLEASANT TO TAKE.

"Open a Charge Account at Castelberg's."

Tuesday we opened fifty-seven new accounts. Fifty-seven more people are convinced of the liberality of our plan of paying for Diamonds, Watches, Jewelry, etc.

Get everybody's prices—then come to us and you'll learn what underselling at Castelberg's means.

Castelberg's,

Washington's Leading Jewelers,

935 Penna. Avenue.
